Under Data Protection Legislation, PolarStar is required to implement an appropriate data protection policy as part of the organisational and technical measures it puts in place to demonstrate compliance with applicable Data Protection Legislation.

This Policy describes how Personal Data must be collected, handled, stored, disclosed and otherwise “Processed” to meet the PolarStar’s data protection standards and to comply with Data Protection Legislation.

This Policy has been designed to demonstrate the minimum standard for the Processing and protection of Personal Data by PolarStar. Where a national law imposes a requirement, which is stricter than imposed by this Policy, the requirements in national law must be followed. Furthermore, where national law imposes a requirement that is not addressed in this Policy, the relevant national law must be adhered to by PolarStar through operational procedures.

This Policy will be reviewed at least annually by the Compliance Team to ensure appropriateness. Additional updates and ad-hoc reviews may be performed as and when required to ensure that any changes to the PolarStar organisational structures/business practices are properly reflected in this Policy.

All amendments to this Policy will be coordinated by the Compliance Team to ensure consistency across PolarStar.

The management team of PolarStar must ensure that each of that PolarStar's Employees who are responsible for the Processing of Personal Data are aware of and comply with the contents of this Policy.

In addition, PolarStar will make sure all Third Parties engaged to Process Personal Data on their behalf (i.e. their Data Processors) are aware of and comply with the contents of this Policy. Assurance of such compliance, usually through the terms and conditions of their appointment, must be obtained from all Third Parties, whether companies or individuals, prior to granting them access to Personal Data controlled by PolarStar.

RESPONSIBILITY & ESCALATION

Considering the circumstances in which a Controller must appoint a Data Protection Officer ("DPO") the PolarStar Board has determined that it is not currently necessary to appoint a DPO. The PolarStar Board shall keep this matter under review, and should guidance emerge which indicates that PolarStar should appoint a DPO, the PolarStar Board will re-consider the need to appoint a DPO.

This Policy is therefore owned by the PolarStar Board, with the Compliance Team being responsible for escalation to the PolarStar Board of any data protection related matters. Where data protection issues arise, these are investigated by the Head of Compliance and where necessary, input from the PolarStar Board may be sought.

A. Lawfulness, fairness and transparency

PERSONAL DATA

A. Definition of Personal Data

“Personal Data” includes any data which relates to a living individual who can be identified:

- from that data; or
- from that data and other piece of information which is in the possession of PolarStar.

Certain categories of Personal Data are particularly sensitive (“Sensitive Personal Data”) and cannot be Processed unless certain conditions are met.

It is PolarStar policy to only hold Personal Data of a given Data Subject where we are legally or contractually required or permitted. All Personal Data will be held and Processed in accordance with the Data Protection Legislation and this Policy.

B. Processing Personal Data

Processing Personal Data includes any operation that is carried out in respect of Personal Data, including, but not limited to, collecting, storing, using, recording, disclosing, transferring or deleting Personal Data.

Personal Data collected by PolarStar is generally collected for the purposes set out in its Privacy Notices including, but not limited to, the following:

- to comply with legal, tax or regulatory obligations imposed on PolarStar under applicable law;
- to efficiently manage its directors and its relationship with its Service Providers;
- to carry out statistical analysis and market research;
- to transfer Personal Data to third parties such as auditors, regulatory or tax authorities and technology providers in the context of the day to day operations of PolarStar in the conduct of its services provided globally; and
- for the purposes outlined in the Employee Privacy Notice.

C. Grounds for Processing Personal Data

Personal Data must only be Processed if the purpose of the Processing satisfies one of the legal bases permitted under the Data Protection Legislation.

The below details the legal bases for Processing which are most commonly relevant to PolarStar Processing activities.

Legal Grounds for Processing Personal Data

The legal grounds for Processing Personal Data include:

- where the Processing is in PolarStar's Legitimate Interests or the Legitimate Interests of a third party and the proposed Processing does not cause unwarranted infringement on the Data Subject's rights;
- where the Processing is necessary for the performance of a contract to which the Data Subject is a party, or for the taking of steps with a view to entering into or exiting a contract at the request of the Data Subject;
- where the Processing is required by law or other regulation to which PolarStar is subject to, for example, Financial Sector Conduct Authority (FSCA) or another relevant regulator's regulations/anti-money laundering and terrorist financing legislation etc.; and
- where the Data Subject has provided its Consent to the Processing for the specific purpose in accordance with this Policy.

Sensitive Personal Data

As detailed previously, Sensitive Personal Data is subject to stricter controls and the circumstances in which it can be Processed are significantly more limited than Personal Data.

PolarStar will only Process Sensitive Personal Data where the Data Subject expressly Consents to such Processing or where one of the following conditions apply:

- Processing relates to Personal Data which has already been made public by the Data Subject;
- Processing is necessary for the establishment, exercise or defence of legal claims;
- Processing is specifically authorised or required by law;
- Processing is necessary to protect the vital interests of the Data Subject or of another natural person where the Data Subject is physically or legally incapable of giving Consent; or
- further conditions, including limitations, based upon national law related to the Processing of genetic data, biometric data or data concerning health.

Children's Data

In general terms PolarStar will not process any Personal Data in relation to a child or minor. Should PolarStar ever be required to Process Personal Data relating to a child, in the first instance PolarStar must obtain guidance and approval from the Compliance Team before any Processing of a child's Personal Data may commence. If it is deemed appropriate PolarStar will be required to obtain parental Consent.

D. Processing of Personal Data relating to criminal convictions and offences

The Processing of Personal Data relating to criminal convictions and offences or related security measures may take place subject to appropriate safeguards for the rights and freedoms of Data Subjects. There are certain conditions under which this information may be inadvertently Processed including:

- the Data Subject has given explicit Consent to the Processing for one or more specified purposes except where applicable law prohibits such;
- Processing is necessary and proportionate for the performance of a contract to which the Data Subject is a party or to take steps at the request of the Data Subject prior to entering into a contract;
- Processing is:
 - necessary for the purpose of providing or obtaining legal advice or for the purposes of, or in connection with, legal claims, prospective legal claims, legal proceedings or prospective legal proceedings, or
 - otherwise necessary for the purposes of establishing, exercising or defending legal rights;
- Processing is necessary to prevent injury or other damage to the Data Subject or another person or loss in respect of, or damage to, property or otherwise to protect the vital interests of the Data Subject or another person; or
- Processing in relation to screening of potential employees. PolarStar conducts background checks including checking for any criminal convictions of senior Employees to assess the risk of fraud or prevent fraud. Employees are notified of this in the Privacy Notice and consent to it in the initial screening form.

E. Higher Risk Processing Activities

The Data Protection Legislation provides that wherever the Processing of Personal Data is likely to result in increased risk to the Data Subject, PolarStar as a Data Controller will need to, before carrying out the Processing activity, perform an assessment of the potential impact of the intended Processing on the rights and freedoms of the Data Subject (a "Data Protection Impact Assessment" or "DPIA").

PolarStar has identified where the Processing of Personal Data takes place globally. Following this assessment PolarStar has not identified any activities that would be considered as posing a high risk to Data Subjects.

PolarStar has also determined that it is unlikely that any other Service Providers will be engaging in higher risk Processing activities on behalf of PolarStar but will keep this matter under review.

F. Fair Processing Information

Any Process which involves the gathering of Personal Data on an individual should contain a Privacy Notice explaining among other things what the Personal Data is to be used for and to whom it may be disclosed. Regardless of how Personal Data is obtained (whether it is obtained from the Data Subject or from a Service Provider) the Data Subject will be provided with certain information about the Processing of their Personal Data by PolarStar. This information will be provided either before or upon collection of the Personal Data. If the Personal Data is obtained from a Service Provider, then the Privacy Notice must be provided within a reasonable time period from obtaining the Personal Data or at the time of the first communication with the Data Subject, whichever is earlier.

This information will be provided in the form of Privacy Notice (please refer to Appendix I for a GDPR specific Privacy Notice).

Where applicable, PolarStar shall ensure that the Privacy Notices are kept under review annually and shall be updated as necessary to reflect non-material changes. Material changes notified to PolarStar by any Service Providers or which otherwise come to the attention of PolarStar shall be made on an ad-hoc basis and the Compliance Team shall instruct the provision of an updated data Privacy Notice to Data Subjects as applicable.

G. Data Register

PolarStar maintains an up to date Data Register of all activities it conducts that require the Processing of Personal Data, a copy of which shall be made available to the DPA upon request.

The Data Register consists of the following elements:

- categories of Data Subjects;
- categories of Personal Data;
- Processing activity;
- the grounds for Processing the Personal Data;
- in which jurisdiction the Processing is conducted;
- whether the Personal Data is transferred to a third party;
- whether the Personal Data is transferred outside the European Economic Area; and
- the retention period.

The Data Register is maintained by the Compliance Team.

CONSENT

While not currently anticipated, where there is no other lawful basis for Processing Personal Data then it should not be Processed unless the Data Subject has given their Consent. For Consent to be valid, it must satisfy the following criteria:

- it must be limited to specific Processing activities;
- Data Subject must have been informed about the Processing activities in sufficient detail so as to be able to fully understand what they are consenting to;
- it must be freely given which means that the Data Subject must have a genuine free choice as to whether they give the Consent;
- the performance of a contract cannot be made conditional upon the Data Subject giving their Consent to the data Processing, unless the data Processing is required to perform the contract; and
- it must be given by way of an unambiguous statement of some other clear active communication by the Data Subject, such as signing a form. Consent cannot be inferred from silence or inactivity such as the use of pre-selected boxes; and
- Details of the Processing of Personal Data must be clearly distinguished from other matters that the Data Subject is asked to agree to.

Equally, where the Processing relates to Sensitive Personal Data and PolarStar cannot rely on any other lawful ground for Processing such Sensitive Personal Data, the Data Subject's explicit Consent shall be obtained, by way of a signed statement.

It is important to note that a Data Subject must be informed of their right to withdraw their Consent at any time. PolarStar shall put in place appropriate Processes to promptly action any withdrawal of Consent. Where a Data Subject wishes to exercise this right, they may contact the designated contact for this purpose via the contact details provided in the Privacy Notices.

LEGITIMATE INTERESTS

Where PolarStar seeks to rely on Legitimate Interests to legitimise certain Processing activities, the Compliance Team must be satisfied that those Legitimate Interests are not outweighed by the interests or fundamental rights and freedoms of the relevant Data Subject.

PolarStar must conduct a Legitimate Interests assessment ("LIA") when relying on Legitimate Interests as a lawful basis for Processing.

This LIA will:

- identify the Legitimate Interest for which PolarStar intends Processing the Personal Data;
- consider whether the Processing is necessary for the pursuit of its objectives; and
- involve the completion of a balancing test which assesses whether or not the Data Subject's interests override the Legitimate Interests of PolarStar.

Factors considered by PolarStar in conducting the balancing test include:

- the nature of the Legitimate Interests and the Data Subject's reasonable expectations about what will happen to their data;
- the impact of Processing on the Data Subject; and
- any safeguards which are or could be put in place in order to limit undue impact on the Data Subject.

Where Legitimate Interests are relied upon this will be notified to the Compliance Team who will review and record the basis of reliance in line with the foregoing LIA.

PolarStar shall provide information on any balancing test conducted by it to affected Data Subjects on request. In the event that a Data Subject objects to the Processing of Personal Data by PolarStar on grounds of Legitimate Interests, PolarStar shall stop the Processing of such Personal Data unless, having re-conducted the balancing test, the Compliance Team is satisfied that the Data Subject's interests should not prevail over those of PolarStar. Furthermore, PolarStar will carry out a new LIA if the purpose of the Processing changes or if it becomes aware of a change in the factors relating to the outcome of the LIA previously conducted.

TRANSFERS TO THIRD PARTIES/SERVICE PROVIDERS

Where PolarStar is required to transfer Personal Data to, or allow access by, a Service Provider, it must be assured that Personal Data will be Processed legitimately and protected appropriately by the recipient.

Where a Service Provider is deemed to be a Data Controller, PolarStar will enter into an appropriate agreement with the Data Controller to clarify each party's responsibilities in respect to the Personal Data transferred.

Where a Service Provider is deemed to be a Data Processor, PolarStar will enter into, an adequate Processing agreement with the Data Processor. The agreement will require the Data Processor to protect the Personal Data from further disclosure and to only Process Personal Data in compliance with PolarStar's instructions. In addition, the agreement will require the Data Processor to implement appropriate technical and organisational measures to protect the Personal Data as well as procedures for providing notification mechanism of Personal Data Breaches. PolarStar has a Standard Data Processing Clause document that should be used as a baseline template, including the provisions detailed below.

When PolarStar is outsourcing services to a Service Provider (including Cloud Computing services), it will identify whether the Service Provider will Process Personal Data on its behalf and whether the outsourcing will entail any Third Country transfers of Personal Data. In either case, it will make sure to include, adequate provisions in the agreement for such Processing and Third Country transfers.

A. Article 28(3) Data Processing Agreements

PolarStar must ensure that it enters into a written agreement with any such Data Processors which includes provisions imposing the specific obligations set down in Article 28(3) on the relevant Third Parties.

B. Right of Audit and Inspection

Under its agreement with the relevant Service Provider, PolarStar shall have a contractual right to obtain all relevant information from that Service Provider which is necessary for the Service Provider to demonstrate its compliance with the data protection obligations set down in the contract. Furthermore, PolarStar shall have the contractual right to carry out an audit or inspection of the relevant Service Provider for such purposes.

DISCLOSURE OF DATA

PolarStar will ensure that Personal Data is not disclosed to unauthorised third parties. All personnel acting on behalf of PolarStar, must exercise caution when asked to disclose any Personal Data to a third party and prior to completing any such transfer. Regular staff training ensures that each individual acting on behalf of PolarStar understands their obligations in this regard.

- Disclosure to third parties may be permitted where this is:
- necessary to safeguard national security;
- necessary for the prevention or detection of crime, in the substantial public interest and where obtaining Consent from the Data Subject would prejudice that purpose;
- necessary for the administration of justice;
- necessary to comply with applicable laws or regulation; or
- necessary to protect the vital interests of the Data Subject, such as life and death situations, but only where their Consent cannot be obtained.

Any instances of uncertainty regarding the sharing or transfer of Personal Data should be referred to the Compliance Team.

TRANSFERRING PERSONAL DATA

A. Transferring outside the European Economic Area

Specific legal requirements apply to the transfer of Personal Data out of the European Economic Area ("EEA"), where transfers of data include sending data to another country or allowing that data to be accessed remotely from another country.

Personal Data must not be transferred outside the EEA unless the recipient country ensures an adequate level of protection for the rights and freedoms of Data Subjects as determined by the European Commission or alternatively one of the following safeguards have been put in place by or on behalf of PolarStar:

- the existence of binding corporate rules; or
- the entry into a data transfer agreement between PolarStar (or a Fund Service Provider acting as its agent) and the non-EEA recipient of the Personal Data which contains standard contractual clauses that have been approved by the European Commission.

B. Transferring outside the European Economic Area

Specified legal requirements apply to the transfer of Personal Data outside South Africa.

Personal Data shall not be transferred outside of South Africa to a country or territory unless that country or territory ensures an adequate level of protection for the rights and freedoms of Data Subjects in relation to the Processing of Personal Data, as determined by the South Africa Ombudsman (the "Ombudsman"), or where PolarStar has in place appropriate safeguards. Where Personal Data is transferred outside South Africa to a country or territory which is not an Ombudsman Approved Territory, PolarStar will assess the relevant criteria outlined by the Ombudsman guidance to determine whether a transfer would be compliant with the Law. Where appropriate, PolarStar will use Ombudsman approved data transfer agreements based on standard contractual clauses published by the Ombudsman or data transfer agreements which replicate the rights and obligations contained in the EU 'standard contractual clauses' pursuant to Article 46 paras (2)(c), (2)(d), or (5) GDPR.

PROFILING & AUTOMATED DECISION-MAKING

PolarStar does not currently engage, nor does it plan to engage in Profiling and Automated Decision making. PolarStar will only engage in Profiling and automated decision-making where it is necessary to enter into, or to perform, a contract with the Data Subject or where it is authorised by law. Where PolarStar utilises Profiling and automated decision-making, this will be disclosed to the relevant Data Subjects.

DATA PROTECTION BY DESIGN

To ensure that all Data Protection requirements are identified, considered and addressed, PolarStar will ensure that material changes such as new systems or processes go through a DPIA before launch in collaboration with the Compliance Team. The subsequent findings of the DPIA must then be submitted to PolarStar's Chief Risk Officer and the Head of Compliance for review and approval.

Where applicable, the Information Technology (IT) department, as part of its IT system and application design review Process, will cooperate with PolarStar and the Compliance Team to assess the impact of any new technology uses on the security of Personal Data.

DATA SECURITY, DATA RETENTION AND DISPOSAL

PolarStar will adopt all necessary measures to ensure that the Personal Data it collects, and Processes is complete and accurate in the first instance and is updated to reflect the current situation of the Data Subject.

The measures adopted by PolarStar to ensure Personal Data quality include:

- facilitating amendments to Personal Data known to be incorrect, inaccurate, incomplete, ambiguous, misleading or outdated, even if the Data Subject does not request rectification;
- keeping Personal Data only for the period necessary to satisfy the permitted uses or applicable statutory retention period;
- the removal of Personal Data, if not compliant with any of the Data Protection principles or if the Personal Data is no longer required; and
- restriction, rather than deletion of Personal Data, insofar as:
 - a legal or regulatory requirement or matter prohibits erasure;
 - erasure would impair Legitimate Interests of the Data Subject; or
 - the Data Subject disputes that their Personal Data is correct, and it cannot be clearly ascertained whether their information is correct or incorrect.

Personal Data must not be retained for longer than is necessary for the lawful purposes for which it is Processed. To achieve this, each category of Personal Data Processed by PolarStar shall be subject to a retention period which can be justified by reference to those lawful grounds. For this purpose, this Policy should be read in conjunction with related operational procedures and Data Classification Policy.

The length of time for which PolarStar needs to retain Personal Data is set out in the PolarStar Data Retention Policy. This requires PolarStar to consider the legal and contractual requirements, both minimum and maximum, that influence the retention periods.

All Personal Data should be deleted or destroyed as soon as possible where it has been confirmed that there is no longer a need to retain it.

Personal Data must be disposed of securely in a way that protects the rights and privacy of Data Subjects and ensures the permanent erasure of the Personal Data. This might include shredding, disposal as confidential waste, or secure electronic deletion.

A Service Provider, acting as a Data Processor, will be contractually obliged to implement appropriate technical and organisational measures which seek to ensure that Personal Data is appropriately protected against accidental or unlawful destruction, loss, alteration, unauthorised disclosure or unauthorised access.

DATA SUBJECT RIGHTS

Data Subjects are entitled to exercise certain rights in respect of their Personal Data. These are detailed within the relevant Privacy Notice and include:

- the right to be informed at the time or before the Personal Data is obtained as to how their Personal Data will be Processed;
- the right to obtain information regarding the Processing of their Personal Data and access to the Personal Data which PolarStar holds about them or which is held on PolarStar's behalf;
- the right to receive a copy of any Personal Data which PolarStar Processes about them, including the right to receive Personal Data in a structured, commonly used electronic format and/or request that this data is transmitted to a third party where this is technically feasible;
- the right to request that PolarStar rectify their Personal Data if it is inaccurate or incomplete;
- the right to withdraw Consent to Processing at any time;
- the right to request that PolarStar erase their Personal Data in certain circumstances. This may include, but is not limited to circumstances in which:
 - it is no longer necessary for PolarStar to retain their Personal Data for the purpose for which we collected it;
 - PolarStar is only entitled to Process the Data Subject's Personal Data with their Consent and the Data Subject withdraws their Consent;
- where PolarStar is Processing a Data Subject's Personal Data on Legitimate Interest grounds, the right of the Data Subject to object to such Processing; and
- the right to lodge a complaint with a supervisory authority, if the Data Subject thinks that any of their rights have been infringed by PolarStar.

Whilst the Data Protection Legislation affords Data Subjects these rights, in some instances PolarStar may not be in a position to fulfil a request.

Furthermore, Service Providers may Process Personal Data on behalf of PolarStar, and it may (in limited circumstances) also deem itself a Data Controller of such Personal Data where it uses the Personal Data for its own purposes. In these circumstances, all Data Subject rights shall be exercisable by the Data Subject against the Third-Party Service Provider alone.

A. Data Subject Rights & Requests

The Data Subject therefore has the right to:

- object to Processing of their Personal Data;
- lodge a complaint with the DPA;
- request rectification or erasure of their Personal Data; and
- request restriction of Processing of their Personal Data.

All requests received for exercise of Data Subject rights including access to or rectification of Personal Data must be directed to the Compliance Team, who will log each request as it is received.

A response to each request will be provided within one month of the receipt of the written request from the Data Subject. Appropriate verification must confirm that the requestor is the Data Subject or their authorised legal representative. Data Subjects shall have the right to require PolarStar to correct or supplement erroneous, misleading, outdated, or incomplete Personal Data.

If PolarStar cannot respond fully to the request within one month, the Compliance Team shall nevertheless provide the following information (to the extent relevant) to the Data Subject, or their authorised legal representative within the specified time:

- an acknowledgement of receipt of the request;
- any information located to date;
- an estimated date by which any remaining responses will be provided;
- details of any requested information or modifications which will not be provided to the Data Subject, the reason(s) for the refusal, and any procedures available for appealing the decision;
- the reasons for which it cannot comply with the request and confirmation of the potential to:
 - lodge a complaint with a supervisory body; and
 - seek a judicial remedy;
- an estimate of any costs to be paid by the Data Subject (e.g. where the request is excessive in nature); and
- the name and contact information of the PolarStar individual who the Data Subject should contact for follow up.

As noted above PolarStar cannot generally charge a fee for dealing with any Data Subject requests. However, where requests from a Data Subject are manifestly unfounded or excessive, in particular because of their repetitive character, PolarStar may either:

- charge a reasonable fee considering the administrative costs of providing the information or communication or taking the action requested; or
- refuse to act on the request.

In such circumstances, PolarStar shall maintain all necessary records to demonstrate the manifestly unfounded or excessive character of the Data Subject's request.

LAW ENFORCEMENT REQUESTS & DISCLOSURES

In certain circumstances, it is permitted that Personal Data be shared without the knowledge or Consent of a Data Subject. This is the case where the disclosure of the Personal Data is necessary for any of the following purposes:

- the prevention or detection of crime;
- the apprehension or prosecution of offenders;
- the assessment or collection of a tax or duty; or
- by the order of a court or by any rule of law.

If PolarStar Processes Personal Data for one of these purposes, then it may apply an exception to the Processing rules outlined in this Policy but only to the extent that not doing so would be likely to prejudice the case in question.

If PolarStar receives a request from a court or any regulatory or law enforcement authority for information relating to a Data Subject known to PolarStar, it must immediately notify the Compliance Team and the appropriate member of the Legal Team who will provide comprehensive guidance and assistance.

NOTIFICATION PROCESS

If any individual or PolarStar suspects that a Data Breach has occurred due to the theft or exposure of Personal Data must immediately notify the Compliance Team providing a description of what occurred. Notification of the incident can be made via e-mail to info@polarstarfunds.co.za.

The Compliance Team will investigate all reported incidents to confirm if a Data Breach has occurred. If a Data Breach is confirmed, the Compliance Team will follow the relevant authorised procedure based on the criticality and quantity of the Personal Data involved.

The Compliance Team will also promptly notify the Board of Directors of PolarStar of the Data breach and shall, if considered necessary, convene a board meeting to consider the matter further.

A. Immediate Notification to the DPC of Data Protection Breaches

PolarStar via the Compliance Team must report all Personal Data protection breaches to the relevant Ombudsman e.g. the South African Ombudsman within the applicable time period, for example:

Under GDPR, notification must be made to the DPC no later than 72 hours after the becoming aware of the Data breach. If a report is not made within 72 hours, then an explanation as to the delay needs to accompany the report.

Under the Law, notification must be made to the Ombudsman without undue delay, but in any event no longer than five days after PolarStar should, with the exercise of reasonable diligence, have been aware of that Data Breach.

PolarStar will follow any guidance issued by the relevant DPA, in relation to reporting Data Breaches. Prior to submitting a notification to the relevant DPA, the notification should be approved by the Board of Directors of PolarStar which is responsible for the Data breach, where possible.

B. Immediate Notification to the DPC of Data Protection Breaches

PolarStar or the Compliance Team will make an assessment regarding notification of a Data Breach to affected Data Subjects, considering the criteria and timing requirements in the relevant Data Protection Legislation.

For example, where the Data Breach falls within the scope of GDPR, PolarStar or the Compliance Team will make an assessment regarding notification of a Data Breach to affected Data Subjects considering the criteria set down in Article 34 of the GDPR.

Where it has been determined that notification to a Data Subject is required, notification should occur promptly, without undue delay.

LOGGING ISSUES AND BREACHES

The Compliance Teams shall maintain a central log as set out in Appendix II containing details on all Data Breaches. Issues and resolution of Data Breaches are managed by the Compliance Team.

DATA PROTECTION TRAINING

All PolarStar Employees will have their responsibilities under this Policy outlined to them as part of their staff induction training. In addition, PolarStar will be required to provide procedural guidance for their Employees.

The training and procedural guidance set forth will consist of, at a minimum, the following elements:

- the Data Protection Principles set forth in Section 3 above;
- each Employee's duty to use and permit the use of Personal Data only by authorised persons and for authorised purposes;
- the need for, and proper use of, the forms and procedures adopted to implement this Policy;
